

FREE FLOW WINES

Sparkling Wine On Tap | EQUIPMENT KIT

## SHANK

Use 304-grade stainless steel for any parts that come in contact with the wine.

## WINE LINES

3/16 vinyl tubing with minimum length of 14ft.

## COUPLER

Free Flow stainless steel wine kegs require a 304-grade coupler to attach the keg to the line.

## ADDITIONAL EQUIPMENT

### TAP TOWER

An additional tap tower may be required when installing a new direct draw system.

### GAS & REGULATOR

Use Beverage Grade CO2 gas only. In some instances, an inline gas regulator may be recommended.

### FAUCET

For the best tasting sparkling wine on tap, we recommend a flow control faucet to regulate foaming.
